HUB HAIR UP BEAUTY SYSTEM

COLLABORATION WITH ROSSANO FERRETTI, DESIGN ELISA GIOVANNONI

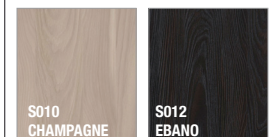

HUB is the wash unit with the innovative system of the Maletti Group, in collaboration with Rossano Ferretti and design by the Giovannoni studio, which meets the needs of the living room of the future. The bin is also designed to meet the needs of independents, spas, hotels and private villas. HUB is equipped with a power supply, a water storage and discharge system that allows it to be used anywhere without the need to create water and electrical connections, a light and functional structure where to store the "tools" (coats, combs, products, etc.) and four swivel wheels (two of which brake) that allow it to be moved easily on any surface.

The **HUB** washing unit can be combined with the **STEAM SYSTEM (Igloo shell + Vapomist)**.

Recommended combination with armchair MUNETTE REC. BOHEME collection, Design Elisa Giovannoni cod. P3587

HUB: colors and wood variants available
